

JELIE ANN L. LIMOTAN

Entry-Level Software Engineer

Danao City, Cebu, Philippines | limotanjelieann@gmail.com | +63 943 078 8788

PROFESSIONAL SUMMARY

Computer Engineering graduate with a strong foundation in web development, JavaScript, HTML, CSS, and software engineering principles. Experienced working with web applications through a Quality Assurance internship, gaining exposure to software development workflows, Git, API validation, and collaborative development environments. Passionate about front-end development and eager to build responsive, user-friendly applications while continuously learning modern technologies such as React.

EDUCATION

Cebu Technological University - Danao City, Cebu, Philippines

Bachelor of Science in Computer Engineering | June 2022 - May 2026

Relevant Coursework: Software Engineering, Data Structures, Embedded Systems

PROJECTS

Urfarmly - IoT-Based AgriTech Capstone Prototype2026

QA Testing and Sensor Response Validation |

- Assisted in integrating hardware and web dashboard functionality by validating sensor data and automation features.
- Collaborated with the development team during testing and feature validation throughout the project lifecycle.
- Helped identify and document application issues while verifying functionality across the web dashboard.

Personal Web Development Projects

- Designed and developed responsive web pages using HTML, CSS, and basic JavaScript, applying responsive layouts and user-friendly interfaces.
- Built static websites implementing semantic HTML, CSS styling, navigation menus, forms, and responsive design principles.
- Used GitHub to manage project files and version control while practicing web development fundamentals.

EXPERIENCE

Certicode - Web Development Department

Quality Assurance Intern | February 2026 - May 2026

- Collaborated with developers during the testing phase of web applications, validating functionality, user interface, responsiveness, and authentication workflows before deployment.
- Performed manual testing and basic API validation to ensure application quality and identify functional issues.
- Documented defects with detailed reproduction steps, screenshots, and testing notes, improving communication between QA and development teams.
- Worked with Git pull workflows, Browser DevTools, Windsurf IDE, and AI-assisted QA tools while becoming familiar with modern software development practices.
- Participated in reviewing staged web applications and verifying fixes before release.

SKILLS

Technical Skills - HTML, CSS, JavaScript (Basic), Responsive Web Design, Git & GitHub, Browser DevTools, Basic API Testing, Basic ESP32 Programming

Tools - Visual Studio Code, Windsurf IDE, GitHub, Figma, Microsoft Office, Google Sheets

Currently Learning - React.js, Tailwind CSS, MySQL

CERTIFICATIONS

Creative Web Design NC III (Certificate No.202107220063) - TESDA | 2023
